WORK EXPERIENCE

Front-end Developer (Fulltime)

Leora Solutions LLP - Palakkad, Kerala

07/2021 - Present

Responsibilities

- Currently working as **Next JS (Typescript)** developer. Also maintaining **React JS** projects that I completed previously.
- Managed implementing my own design ideas with **Material UI** for theming and reusable components.
- Handled project phases from planning stage to completion stage while maintaining guidelines throughout.
- My work also includes **optimizing server requests**, proper **cache management** system and making the website compatible with **multiple browsers**.

Front-end Developer (1 Year Contract)

Leora Solutions LLP - Palakkad, Kerala

06/2020 - 06/2021

Responsibilities

- Completed **5 projects** in provided time whose requirements were based on Business analytics, IOT based technologies and digitalizing business with a good interface.
- Learned to build projects with good **folder structure** using **React JS** framework and popular state management libraries like **Redux JS** providing easiness for future updates.
- Providing **uniqueness in design** and interface across all of their products.
- Optimized data fetch count to **reduce server load** and created reusable design components across all of their products.
- Improved my fundamental skills in **form validation** and communicating with **REST API**.

Freelance Web Developer

EmergeAbility

07/2020 - 08/2020

Responsibilities

- Developed landing page using Javascript framework, **React JS**.
- Learned to create complicated **animations** with CSS and CSS frameworks like **Reactstrap, Bootstrap**
- Improved my skills in **responsive design** and made sure the website is responsive for all desktop and mobile devices.
- Demo: <http://emergeability.org/>

Web Developer Intern (3 months)

Nanban Tech ventures - Coimbatore, Tamilnadu

06/2020 - 08/2020

Responsibilities

- Worked on vanilla **JavaScript, HTML and CSS** to create user interfaces.
- Learned and developed skills necessary for a **React JS** developer.
- Troubleshoot and debugged code ensuring compatibility with devices, browsers, and operating systems.
- Collaborated with project managers and QAs.
